Snippets

FFXIV Gearset Manager   🔗   **ffxiv-gearset-manager.onrender.com**
This app takes etro.gg links, calls their API for information on the provided gearset and builds a collection on the page. Currently in development as a tool for raid groups to compare the full cost of individual gearsets and manage progress towards completing them. Ongoing development. Uses React and Bootstrap, developed using JS.
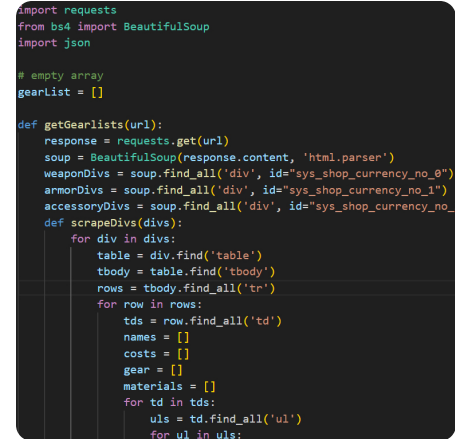

D&D 3.5 Character Creator 🔗 **dnd-3-5-character-creator.onrender.com**

An app for creating characters in D&D 3.5 using data from my D&D 3.5 Backpack api. Ongoing development. Built with React and Bootstrap, developed using JS.

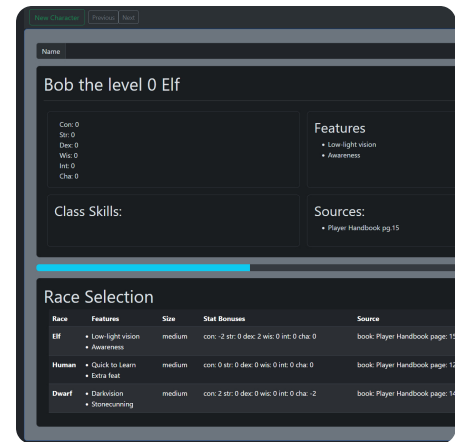

Python Webscrapers 🔗 **github.com**

A small collection of webscrapers I'm developing to supply data for my other projects. The ff14 scraper is fully functional and outputs the retrieved data as a JSON object in a separate file. Dnd scraper is currently in progress. Uses Beautiful Soup 4.

```python
import requests
from bs4 import BeautifulSoup
import json

# empty array
gearList = []

def getGearlists(url):
    response = requests.get(url)
    soup = BeautifulSoup(response.content, 'html.parser')
    weaponDivs = soup.find_all('div', id="sys_shop_currency_no_0")
    armorDivs = soup.find_all('div', id="sys_shop_currency_no_1")
    accessoryDivs = soup.find_all('div', id="sys_shop_currency_no_
    def scrapeDivs(divs):
        for div in divs:
            table = div.find('table')
            tbody = table.find('tbody')
            rows = tbody.find_all('tr')
            for row in rows:
                tds = row.find_all('td')
                names = []
                costs = []
                gear = []
                materials = []
                for td in tds:
                    uls = td.find_all('ul')
                    for ul in uls:
```

D&D 3.5 Backpack 🔗 **dnd-3-5-backpack.onrender.com**

A CRUD site and API for Dungeons and Dragons 3.5. Uses Express/Node, MongoDB for the database, Bcrypt for authentication and EJS for SSR and templating.
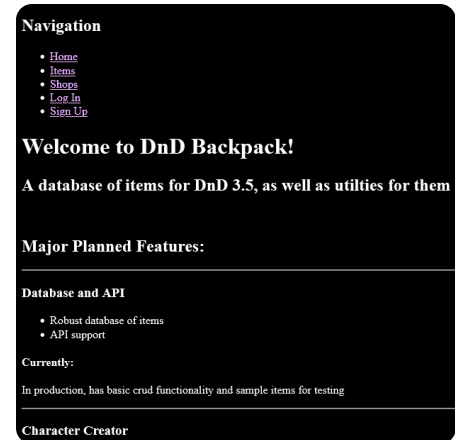

More about me

I like to work with people who...

...have a passion for something, even if not work related, and genuinely care about the people around them.

I'm making a career change because...

...I put in the work and invested in myself to change what was possible. Every day I open my IDE and create I feel like I'm living a dream I had years ago, and I want to make that my everyday reality.

Right now I'm learning...

...to develop web pages with Django and Python. I'm taking the Python Web Development course from EDX.

Interests

TTRPGs, FF14, Runescape, Art, Writing, Designing games and useful software, Gardening
